Any person that violates any provision of this title is subject to the penalties and entitled to the privileges and immunities provided in the Magnuson-Stevens Fishery Conservation and Management Act in the same manner, by the same means, and with the same jurisdiction, power, and duties as though all applicable terms and

SEC. 611. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out the obligations of the United States under the Agreement and this title.

TITLE VII—MISCELLANEOUS

SEC. 701. STUDY OF THE ACIDIFICATION OF THE OCEANS AND EFFECT ON FISHERIES.

The Secretary of Commerce shall request the National Research Council to conduct a study of the acidification of the oceans and how this process affects the United States.

SEC. 702. PUGET SOUND REGIONAL SHELLFISH SETTLEMENT.

(a) FINDINGS AND PURPOSES.—

(1) FINDINGS.—Congress finds that—

(A) the Tribes have established treaty rights to take shellfish from public and private tidelands in Washington State, including from some lands owned, leased, or otherwise subject to harvest by commercial shellfish growers;

(B) the district court that adjudicated the Tribes' treaty rights to take shellfish found that the growers are innocent purchasers who had no notice of the Tribes' fishing right when they acquired their properties;

(C) numerous unresolved issues remain outstanding regarding implementation of the Tribes' treaty right to take shellfish from lands owned, leased, or otherwise subject to harvest by the growers;

(D) the Tribes, the growers, the State of Washington, and the United States Department of the Interior have resolved by a settlement agreement many of the disputes between and among them regarding implementation of the Tribes' treaty right to take shellfish from covered tidelands owned or leased by the growers;

(E) the settlement agreement does not provide for resolution of any claims to take shellfish from lands owned or leased by the growers that potentially may be brought in the future by other Tribes;

(F) in the absence of congressional actions, the prospect of other Tribes claims to take shellfish from lands owned or leased by the growers could be pursued through the courts, a process which in all likelihood could consume many years and thereby promote uncertainty in the State of Washington and the growers and to the ultimate detriment of both the Tribes and other Tribes and their members;

(G) in order to avoid this uncertainty, it is the intent of Congress that other Tribes have the option of resolving their claims, if any, to a treaty right to take shellfish
